Summary

I'm a quick learner and creative thinker eager to begin my career by contributing to real projects and continuously improving my skills. I enjoy collaborating with others, sharing ideas, and ensuring tasks are completed clearly, efficiently, and on time. I'm motivated to learn and grow within a team-oriented environment.

Skills

- Programming Languages: HTML&CSS, JavaScript, Java, React.js, Node.js, Express.js, MongoDB, REST APIs,
- Full Stack Web Development
- Soft Skills: Communication, Teamwork, Problem-Solving, Time Management

Projects

- Dairy Management System
A Dairy Management System is a software application that helps dairy farms or dairy product businesses manage their daily operations efficiently. This system focuses on tracking milk production, supplier/customer records, inventory, billing, and payments through a structured database.
- Smart Farmer – Expense & Market Management System
Smart Farmer is a mobile-friendly web app that helps farmers track income, expenses, and market prices. It shows net profit and provides smart crop-selling suggestions based on market trends.
